

With the impact of Covid-19, communication and checking in with your team has never been more important.

A pulse survey is a short survey of 4 or 5 questions distributed to employees on a frequent basis. Fast, easy, and insightful. These surveys give business leaders real-time insight into how employees are feeling.

Positive People has developed five survey options; **Employee Engagement, Wellbeing, Communication, Navigating Change and Working from Home.** Or work with us to develop one to fit your unique environment.

Boost Profitability with a Pulse Survey

Increased Engagement

Making positive changes as a result of feedback lifts employee commitment and leads to increased productivity.

Real-time Feedback

Don't wait a year to measure engagement, find out how your team are feeling and what they need right now.

Meaningful Insights

Really understand what motivates and de-motivates employees.

2-Way Communication

Let the team know you value their feedback.

Quick to Complete

Short and simple, these surveys are not time consuming – allowing the team to get on with their work.

High Response Rates

Get a more accurate picture through higher response rates than longer annual engagement surveys

Pulse survey prices start at \$500 + gst per survey.
